

GROUNDING PARKING STAND ASSEMBLIES - 15KV

- For padmount transformer applications
- Pre-Assembled
- All assemblies utilize 6' of 1/0 yellow ground cable
- Versatility of the ferrule termination, (threaded or non-threaded) allows for the selection of a wide variety of ground clamps
- Lug termination on the bushing and the ferrule termination are both sealed with heat shrink, which prevents the entry of moisture into the connection, plus provides added stress relief to the termination
- All assemblies are fault current rated at 10KA for 10 cycles
- To order a grounded parking stand plus a ground clamp, place a (-) behind the parking stand number then your ground clamp number - Example: 6771-21575

CAT NO	DESCRIPTION	LBS	CASE
6771	15KV GROUNDED PARKING STAND WITH THREADED FERRULE	5.5	01-4007 OR 7254
6772	15KV GROUNDED PARKING STAND WITH PLUG TERMINAL FERRULE	5.5	01-4007 OR 7254
