

DUCT RODDERS

- Fiberglass rod consist of glass fibers impregnated with resin and cross wrapped to form a compact and tightly bound core. It has an outside jacket of tough, durable, smooth plastic to prevent wear, reduce friction and slide easy.
- Three rod sizes available.
- Storage reels are designed for heavy duty use. All reels are constructed from steel tube frame and black powder coated to resist weathering.
- Storage reel - Type A - 15" diameter and will accommodate up to 300' of 3/16" diameter fiberglass rod.
- Storage reel - Type B - available in two sizes: 30" diameter reel for storage of up to 500' of 3/8" diameter fiberglass rod, and 40" diameter reel for storage of up to 1,000' of 7/16" fiberglass rod. Both 30" and 40" reels have adjustable brakes.
