

5044

EMERGENCY RELEASE LANYARD

- For use with lift arms and single conductor lift heads
- Allows ground personnel the ability to open conductor holders under emergency conditions
- Easy to install - each lanyard is made with a swivel snap to attach to trip release on conductor holder
- Safe - each lanyard has an 18" solid fiberglass rod at the top end to isolate the rope from line to ground potential
- 1/4" diameter x 30' long poly rope is attached to ring on bottom end of fiberglass rod
