

CONVERTIBLE CROSS ARM GIN

- Base assembly will accept either the 2 1/2" O.D. x 31" long mast or 3" O.D. x 58" long mast. This feature allows operating personnel maximum lifting heights and safe working load limits.
- Base assembly is constructed with aluminum alloy parts and base plates are reversible to allow gin to be used on 3 1/2" wide x 4 1/2" high or 4 3/4" wide x 5 3/4" high cross arms.
- Aluminum plate support on base prevents damage to cross arms in load bearing areas.

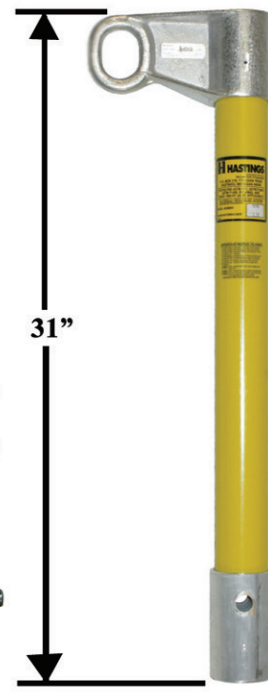

CAT NO	DESCRIPTION	DIMENSION		WORKING LOAD LIMIT (SEE PAGE 811)	LBS
		"A"	"B"		
5570	COMPLETE GIN ASSEMBLY WITH ITEM 5574 BASE AND ITEM 5572 MAST	21 3/4"	28 1/4"	600 LBS	17.2
5571	COMPLETE GIN ASSEMBLY WITH ITEM 5574 BASE AND ITEM 5573 MAST	48 3/4"	54"	800 LBS	27.0
5574	CONVERTIBLE BASE ASSEMBLY ONLY				11.8
5572	2 1/2" O.D. X 31" LONG MAST ONLY	21 3/4"		600 LBS	5.4
5573	3" O.D. X 58" LONG MAST ONLY	48 3/4"		800 LBS	15.2
