

7710 PROOF TESTER FOR THE 7701 HOT LINE INDICATOR

- The Tester allows you to make sure that the 7701 is working properly when no known voltage is present.
- Will work with the competitor's indicator as well.
- Unit has a low battery indicator and runs on a 9 volt battery.
- Will fit in the same case with the 7701 Hot Line Indicator.
- Just push the button and hold to test.
